- **SUP Practitioner-Focused Workshops** – These workshops focus on practitioner instruction with practical applications. Participants should be actively involved with takeaway ideas and digital or physical resources. These **interactive sessions** are one-hour in length.
- **SUP Roundtable Discussions** - In a one-hour timeframe, multiple discussions will occur simultaneously with participants able to rotate among discussion groups.
- **Pre-service Teacher Presentations** – Presentations will be all electronic so that presenters can share their research via their own computer or tablet. Computers will be on high-top tables and set so that they can be easily seen. Attendees will rotate among presentations.
