The Cambridge Handbook of School–University Partnerships offers a panoramic view of research on school–university partnerships (SUPs), laying the groundwork for further development in the field. Through different theoretical and methodological perspectives, it amplifies the voices of scholars and practitioners across various institutions. This inclusive approach provides a comprehensive resource for researchers, scholars, students, practitioners, and policymakers, that honors diversity while fostering unity and expansion within the field of SUPs. Covering topics from historical foundations to international perspectives, the handbook delves into areas such as teaching, equity, leadership, community engagement, innovation, funding, and policy. By embracing the collaborative essence of SUPs, it promotes mutual benefit and encourages continued exploration in these dynamic settings.

Part I. The History and Conceptual Foundations of School–University Partnerships; Part II. Teachers and Learning to Teach in School–University Partnerships; Part III. Equity and Student Learning in School–University Partnerships; Part IV. Leadership in School–University Partnerships; Part V. Community Schools as School–University Partnerships; Part VI. Inquiry and Innovation in School–University Partnerships; Part VII. Funding, Policy and the Politics of School–University Partnerships; Part VIII. Looking at School–University Partnerships across Geographic and Cultural Borders.
